ECAD- MUNICIPALITY OF SILVI

Public notice of the planning for the Social participative activity:

- Work station: disability and not self-sufficiency
- Work station : social inclusion and opposition to poverty
- Work station : the elderly and active ageing
- Work station : minors, young and family, support to parenthood, contrast of violence and fight against addictions

ECAD- MUNICIPALITY OF SILVI

Community Lab Method:

it consists of an analysis among social backgrounds and real cases of social troubles where the solution has been found thanks to community (citizens) and not only experts. In so doing the Community Lab is a method that creates knowledge through the action of the community.

The creation of a **Partecipative Welfare** is meant as a larger program involving different levels of the community: citizens, experts and political organization (**PSD**)

ECAD- MUNICIPALITY OF SILVI

To support the dissemination of **social activities moving beyond the traditional targets** through new solutions with the aim to face the social needs involving different ages and social groups.

ECAD- MUNICIPALITY OF SILVI

To support a transformation of **services because we “go towards”** our citizens without waiting for them at the services window when their trouble become chronic. The main idea is to **engender collectively** new resources to increase awareness to contrast the starting need. This method is also a solution to contrast the reducing of material and financial resources without weakening the public welfare.

SYSTEM OF ACTIONS

- Card of social citizenship
- Exchange instruments with the citizens
- Settlement of indicators
- Monitoring and analysis
